

HYDROFRACKING FOR NATURAL GAS IN THE MARCELLUS SHALE FORMATION PUBLIC FORUM

**How should the Delaware River Basin Commission's
Proposed Regulations be strengthened to protect the
environment, public health and property?**

Photo taken in Dimock, Pennsylvania.

The League of Women Voters of New Castle County and
Nurses Healing Our Planet are co-sponsors.

**WEDNESDAY, JANUARY 25, 2012
6:30 PM REFRESHMENTS
PROGRAM: 7-9 PM
LIMESTONE PRESBYTERIAN CHURCH
3201 Limestone Road,
Wilmington, 19808**

PANELISTS:

- ▶ **KATHLEEN STILLER**, Director, Division of Water Resources, Dept. of Natural Resources and Environmental Control
- ▶ **ROBERTA WINTERS**, Vice President, LWV-Pennsylvania
- ▶ **MAYA VAN ROSSUM**, Executive Director, Delaware Riverkeeper Network
- ▶ **GAS DRILLING INDUSTRY SPOKESPERSON**

The four speakers will present their views and answer questions from the audience.

A map of Limestone Presbyterian Church's location is available at

www.limestonepresbyterian.org, go to Maps and Directions found in the upper right hand corner of the church's homepage.

SOME QUESTIONS THAT NEED TO BE ANSWERED:

- Why should Delaware be concerned with what happens in PA and NY?
- Are there risks to Delawareans' public health from the gas drilling?
- Are residents told that they could become responsible for cleaning up their own properties plus their neighbors in case of a spill?
- Do you know that 25% of the properties in the Marcellus Shale Formation have absentee landowners, some of them foreign investors?
- Do leaseholders know that they might not be able to terminate their leases with drilling companies?
- Does hydrofracking make the earth more susceptible to earthquakes?

COME GET YOUR QUESTIONS ANSWERED. BE SURE TO ATTEND THIS FORUM

This program is free. All are welcome
